A GERMAN PLOT TO CRIPPLE THE PANAMA CANAL DISCLOSED

Teuton Scheme to Blow Up Ship Loaded With Dynamite at Gatun Dam Frustrated.

United States Torpedo Boat Destroyers Capture Ship Loaded With Ammunition Bound For Mexico.

NEW YORK, April 12.—A German plot to cripple the Panama Canal by blowing up a vessel loaded with dynamite at the Gatun locks was disclosed by General George W. Goethals, builder of the waterway.

General Goethals told the members of the American Geographical Society that shortly after the beginning of the European war he received from Washington a hasty dispatch asking him to look out for a German vessel, which was named. This ship, the message said, was loaded with high explosives.

The vessel arrived at the Atlantic port of the canal and, according to General Goethals, was inspected thoroughly and permitted to pass, with only an American pilot on board. When the German vessel had proceeded some distance it was halted by a wireless flash to the American pilot. A squad of marines was rushed on board, replacing the crew taken off and the boat was guided through, the original crew being permitted on board again only when the vessel reached the Pacific.

SAN DIEGO, CAL., April 12.—A ammunition-carrying schooner bound for a Mexican west coast port was fired upon and captured by two United States torpedo boat destroyers. It was learned here from authoritative sources. Five shots were fired at the vessel when it attempted to escape and the ship was then beached. Several thousand rounds of rifle and machine gun ammunition were taken aboard the destroyer and landed at a Pacific coast port.

WASHINGTON, April 12.—Efforts of the administration to limit the publication of facts concerning ship movements were discussed at a Cabinet meeting and afterward Secretary Daniels transmitted a request to all newspapers not to print the arrival or departure of any ships in the coastwise or international trade or of any naval vessel. Previously Mr. Daniels had informed the newspapers that publication of the arrival of merchant ships was not objectionable, but it was agreed that even this was dangerous.

LEXINGTON, KY., April 12.—Lexington will be the point of mobilization for Kentucky troops and probably those from adjacent States.

A dispatch from Washington this morning states that the city has been officially designated and that the only question is as to which of two farms that have been under consideration will be selected.

Kentucky now is in the Department of the East and General Leonard Wood, its present commander, has approved one of the tracts. May 1, the State goes into the Central Department, General Thomas H. Barry, commanding. General Barry prefers the other camp site. It is believed here that an agreement on one or the other will be reached speedily.

LONDON, April 12.—Diplomatic relations between Brazil and Germany have been broken off, according to the Evening News.

Reuter's Rio Janeiro correspondent also announces that Brazil has severed relations with Germany. Brazilian interests in Germany will be taken over by Switzerland, the correspondent adds.

PETROGRAD, April 12.—The Russian revolution and the entrance of the United States into the war following closely upon each other, can hardly fail to shake the determination and courage of the German people, and will undoubtedly bring the end of the war nearer, was the opinion expressed to the Associated Press by Prof. Boris Bakhmeteff, Vice Minister of Trade and Industry.

EL PASO, TEXAS, April 12.—Fredrick Beuter, acting German Vice Consul in Juarez, has been interned at Ft. Bliss. He was taken into custody at the American end of the International bridge. Reuter's home is in El Paso, and he has been going to Juarez daily. He was said to have been warned that he must cease crossing to the American side.

WASHINGTON, April 12.—Army building plans of the administration are to be supplemented at once by the establishment at many points throughout the country of civilian training camps for officers.

The great need of the war army to be raised will be properly equipped officers, and to aid in meeting the demand the War Department has decided to adopt the Plattsbury idea on a nation-wide scale.

Arrangements for the camps are al-

ready being made, and civilians desirous of fitting themselves for commissions in the officers' reserve corps may apply now to departmental commanders for assignment to them. The number of camps to be set up will depend on the number of applications received.

MANFIELD, OHIO, April 10.—"If I were for a German flag I would gladly give something," John Them, 27 years old, a naturalized German, said when asked to make a contribution for a flag at the Ideal Electric and Manufacturing Company's plant. Them was seized and thrown out of the building. Later he was told he might salute and kiss the flag as reparation for the insult. He apologized for his remark and kissed the flag reverently.

NEW YORK, April 12.—A resolution recommending that the trust companies of the nation seek legislation which will permit them to carry their gold reserve as deposits with Federal reserve banks was adopted unanimously by the Executive Committee of the Trust Company Section of the American Bankers' Association at a special meeting here.

The committee's recommendations, if adopted, will do much to strengthen the credit of the country, according to a statement issued by the committee as to trust companies, besides having \$9,000,000,000 in banking resources, hold billions of dollars more in connection with their individual and corporate rights.

CHESTER, PA., April 12.—Two suspects were arrested in connection with the explosion. The prisoners are Samuel Cohen, 25 years old, who gave an address in Philadelphia, and his father, who is described as being between 50 and 55 years old. It is said the older man was well supplied with money and that neither is an American citizen.

Officials asserted that papers found on one of the men were "incriminating and very important."

WASHINGTON, April 12.—Tens of thousands of letters and telegrams from every part of the country have poured into the department of justice in the last few days in response to the department's request that all government employees and the general public submit information regarding the activities of foreign agents in this country. The enormous collection of data is being tabulated and investigated as rapidly as possible, and to take care of it additions have been made to the bureau of investigation.

BERNE, April 12.—The American legation has been officially notified from Vienna that the American embassy staff there, comprising nineteen secretaries and clerks, four women, wives of attaches, and one child, may be expected to arrive here Sunday, together with the consular staff at Vienna, Budapest, Carlsbad, Trieste, Prague and Fiume.

SAN FRANCISCO, April 12.—Warning that German submarines are believed to be operating in the Pacific were sent to all steamship captains at sea late today by wireless by order of Lieutenant Commander E. C. Weeds, of the Twelfth naval district, here.

The warning said: "Information has this day been received that German submarines are operating in the Pacific. Please notify all ships under your control and ask that they spread the warning broadcast." The locations of the submarines were not made public.

CINCINNATI, O., April 12.—On a charge of denouncing the United States and shouting "Hoch der Kaiser!" Edward Jacobs, 41, was sentenced to thirty days and fined the costs by Municipal Judge Spiegel. Patrolman Donlin and others testified that Jacobs created excitement by denouncing President Wilson and casting insult on the flag.

"The United States is in a state of war," said Judge Spiegel. "Now is a good time for foreigners to keep a tight mouth."

WASHINGTON, April 12.—A great international war council is to be held in the United States in the near future. The State Department confirmed the report that English and French commissions, headed by former Premiers Balfour and Viviani, are expected here within ten days for full discussion of the war and American's participation in it.

JUDGE C. A. McMILLAN ANNOUNCES CANDIDACY

TO THE VOTERS OF BOURBON COUNTY:

I take this means of announcing to you that I am a candidate for re-election to the office of Judge of the Bourbon County Court. My present term as County Judge is my first term and I may add that it has been customary with Democrats to compliment an officer with a second term when he has endeavored to do his duty the first term. This was done with Judge Matt Turner, Judge Russell Mann, Judge Henry C. Smith and Judge Denis Dundon. My opponent will no doubt admit this custom as he, himself, is now enjoying under this custom a second term as County Attorney, which was conceded him without opposition. Such endorsement the second term of office I likewise ask at the hands of the people of Bourbon County.

If I am re-elected the public will have a continuation of the faithful and efficient services of my appointee, Mr. Ben F. Bedford, Jr., as Road Engineer, and also the capable and polite services in my office of Miss Grace Haskins.

If re-elected, I shall continue, as during my first term, to devote my time to the duties of the office without attempting to practice law at the same time.

The intimate knowledge of the many things that pertain to this office, including the turnpike work, I have acquired during my present term, make me more serviceable to the county the next term. I submit that it would be the best interest of the county for the work I have set on foot during this term to be continued through another term. My opponent has published that he is not on any slate of line-up or a member of any faction. I do not suppose he means to say he is the only candidate so situated, though some might give his card that construction. For the benefit of such, I will say that I am just as free as he is from the objectionable things he mentions, and if re-elected I can say as he does, "I propose to give you a real business administration and to devote my time and energy to the duties of the office. To personally see that no favoritism is shown in awarding contracts, to also see that the state receives their just proportion of the money expended in improvements (it is possible for this to be done at this time, as during my present term I have caused all of the main turnpikes to be put in good order and at this time I have secured sufficient machinery to repair the side pikes) and to impartially, faithfully and efficiently enforce the law and in all matters to give you the best service within me. I will make you no promises which I know I cannot fulfill, only to obtain your votes." This I have done in the past and expect, if re-elected, to continue doing.

During my present term we have reconstructed most of the main turnpikes of the county, erected sixteen concrete bridges that are permanent and will never have to be reconstructed, and have also secured an up-to-date construction outfit, together with two large road trucks for the repairing of turnpikes and have the same in operation every day at the least possible cost to the county.

If you feel that I have made you a competent official and am entitled to the endorsement I seek, I will be very grateful for your support.

It remains without saying that I have always been and will continue to be a good Democrat, and have given my time, my money and all that is within me in support of our party and will always continue to do so.

As soon as the duties of my office permit, I will make a personal and house to house canvass in order that I might see you each in person and ask for your support, which I now take this means of asking.

C. A. McMILLAN.

FLAG STAFF IN POSITION.

Mr. John Merringer and assistants yesterday afternoon placed in position on the court house the big 28-foot steel flag staff, from which will float the American flag, donated to the county by the patriotic Jewish citizens of Paris. Walton, local attorney for the company, received notices from the officers of the company in Chicago that because of the present war and shortage of grain the order had been issued to co-operate in the nationwide efforts to conserve the grain supply of the country for food.

COL. JAMES M. ARNOLD ANSWERS DEATH SUMMONS

Prominent Ex - Bourbonite Dies Suddenly in Cincinnati—Burial in Paris This Morning.

Colonel James Madison Arnold, life member of the Chamber of Commerce, Cincinnati, and veteran of the Confederate army, and a native of Bourbon county, died of apoplexy at noon Wednesday, at his residence, 525 Garrard avenue, Covington. He was stricken at 6 o'clock when in a bathroom, where he was found by a member of his family.

Colonel Arnold was widely known throughout Kentucky. He was born in Paris, Ky., in 1840. He was one of General Kirby Smith's army, which frightened residents of Covington in 1862 when orders were received to take Cincinnati. He was then First Lieutenant of E Company, First Arkansas Infantry.

He was educated in Covington and Cincinnati. He was in Arkansas when that State seceded, and followed his State in the war. First as a private, he progressed to a Captaincy. His first engagement was at Shiloh, and joining Smith, took part in the battle at Perryville, Ky., which was lost to them. He was wounded seven times, and was captured in the battle at Arkansas pass in '65. Only a few days ago, when serving on a jury in the Federal Court, he spoke of the present conditions, saying:

"The ex-Confederate soldier is the most loyal American."

Colonel Arnold also was Captain of A Company, Carlton's Cavalry, Cleburn's brigade, and at the time of his demise a Brigadier General of United Confederate Veterans, on General Bennett Young's staff. Recently he was appointed by Governor A. O. Stanley, Trustee of the Confederate Home at Pewee Valley, Ky. For many years he was President of the Newport Board of Education, one of the schools being named in his honor.

For a score of years he was an official of the Cincinnati Southern Railroad Company until he was retired by that company.

Colonel Arnold was an excellent horseman and was conspicuous in all pageants in Covington upon his black charger with snow-white saddle, bridle and martingales, and often made Decoration Day addresses at the graves of Confederate soldiers in Kentucky.

Colonel Arnold was a brother of Colonel Brent Arnold, Superintendent of Cincinnati Terminals of the L. and N. and General Freight Agent of Kentucky division of the same road.

He is survived by his widow, Eleanor Hart Talbott Arnold, Miss Lucy Brent, Sophie Hart, G. T. E. C. and J. M. A. Arnold.

The body of Col. Arnold will arrive on the 9:45 L. & N. train from Covington this morning, accompanied by a deputation from the Cincinnati Chamber of Commerce and other organizations. It will be taken directly to St. Peter's Episcopal church, where services will be conducted by Rev. Geo. H. Harris.

The pall-bearers will be: J. Harry Holt, Capt. James R. Rogers, Amos Turner, Sr., D. C. Parrish, Dr. C. G. Daugherty, James McDonald, Charles Meng and Gano Hildreth. The burial will follow on the family lot in the Paris Cemetery.

At the grave in the Paris Cemetery the committal services will be in charge of John H. Morgan Camp, United Confederate Veterans, of Bourbon county.

GIRLS INTRODUCED BY REPRESENTATIVE HUTCHCRAFT

Three important revenue-producing bills were introduced in the House at Frankfort, Tuesday, by Representative Reuben B. Hutchcraft, of Paris, House Bill No. 58, the first bill introduced by Representative Hutchcraft, is an excise tax bill levying a tax of one cent on each thousand feet of gas produced and a tax of three per cent. of the sale price of oil produced. Provisions for a tax on cigars, soft drinks and patent medicines were also contained in the measure.

The second measure introduced by Mr. Hutchcraft deals with the commissions made by operators or part-mutual machines. Under its provisions operators of these machines may deduct six per cent. from the commissions, two per cent. of which is to go into the State Treasury.

In the third measure increases of present taxes are set out. The hotel license is increased from \$10 for twenty-five rooms or more to \$15 for each twenty-five rooms. Other increases in this bill are made on oil and petroleum sold in wagons, the peddlers' tax, the hack line tax, the soda fountain tax, theatres and automobile and repair shops.

Tears shed upon a coffin will not blot out the stains that may have been cast in life upon the stilled heart within it.

EDITORIAL MUSINGS.

The Town Beautiful Movement.

Some one remarked the other day when a certain proposal of local improvement was being discussed, that "Beauty is a luxury. We can't afford it." Was he right?

Here is one plain fact, and any experienced real estate man can verify it from his own observation. Take a street of plain, simple houses, with no attempt whatever at ornamentation of any kind, just naked wood, bricks and cement. Suppose some morning this spring the residents should get together and decide that the street looked too bare and commonplace.

Suppose they all agree to spend \$50 in planting shrubs and trees, grading and sowing grass seed. Let them also agree to spend a few hours a week in keeping the place neat and in planting and tending flowers.

What would be the effect? Complete results of course would not show the first year. The second season the hard angles between earth and walls would be softened by a nest of flowering shrubbery. In a few years more, the young trees, particularly if well selected with some quick growers, would provide some shade and screen.

The selling price of those places would pick up as soon as the shrubs got started. When the trees got a little bigger, the whole character of that street would have changed. It would suggest culture, care, refinement. People from other districts would look at it longingly and would snap up empty houses. Eventually a place that cost \$3,000 would be likely to sell for \$3,500 to \$4,000, because of the reputation and desirability of the neighborhood for residence.

People who say that beauty is a luxury know very little about human nature or business. A beautified neighborhood is accepted as a sign of a higher scale of living. People feel that in moving into it they are improving social station, not to speak of the pleasure to the eye which beauty always gives.

Commercial Preparedness.

Much is being said on the above subject, with reference to the end of the war. Commercial Preparedness is to be the slogan of the National Foreign Trade Association, meeting at New Orleans soon. Business men are admonished to look alive, or they will lose trade as the result of European pressure for business after the war.

Much of this talk, of course, is "bringing coals to Newcastle." American business men have always set up nights thinking how they could attain better commercial preparedness. The agility with which they chase the dollars is the marvel of the world. They will have any trade lying in sight that is not tied down by conditions beyond their ability to meet.

Some progress has been made since the war began, in the effort to capture South American trade. Some business men think they can get it merely by sending out salesmen from this country, who may or may not be able to speak the language. It's slower work than that.

To get that business, the chances are that a good many of our people will have to take up their residence in South America. To build up a trade, they must know the field and the people intimately, understand economic conditions and the custom of the people. For the first five years a representative would scarcely pay for his salt. Gradually commercial ties would

grow, and in the end there would be a large chance for expansion.

If American business men have a fault as a class, it is the desire for quick returns. They are not over cautious about new ventures. They rarely say, "A bird in the hand is worth two birds in the bush to-morrow." They hate to wait for results, and prefer to build for to-day rather than for next year. International currents of trade are not built up in that way.

EDISON CAREFULLY GUARDED WHILE AT WORK

Somewhere on the seaboard, guarded from prying eyes, Thomas A. Edison and a little group of super-inventors are working ceaselessly—plotting Germany's downfall.

Every facility and assistance which the government departments can provide is being furnished them in unstinted lot.

Naval officers are constantly in attendance to lend their expert experience in making practical the coming inventions.

Just what the brain children are—just how far they will upset all past methods of warfare—and just how far the German government will come to fear this little group of workers, is yet to be revealed.

Other than a small inner circle of government experts their activities are known to no one. But since it is admitted this government is now briefly concerned in combating submarines, it is taken for granted that some submarine panacea is receiving most thought.

BOURBON FARMING CONDITIONS.

April promises to be a very busy month for the farmers of Bourbon county, as planting and other work usually accomplished earlier in the season have been greatly retarded by the unfavorable weather conditions.

The farmers have taken advantage of every day that has been at all suitable for preparing the ground for planting corn, burning beds for tobacco and for gardening.

Larger crops of all commodities will be cultivated this year, as the war will naturally create a demand for everything that can be produced.

Wheat and rye have been badly injured by the winter freezes and thaws and some of the farmers have been plowing up their fields and resowing them with other crops. Pastures are looking very well, and it is hoped that the feeding season for livestock is about over, and that there will soon be plenty of pasture for them again. Stock is looking well and seem to have come through the winter in fairly good shape.

Gardens will be more popular this season than ever before, and considerable work in that line has already been done. Many farmers are planning to raise larger crops of onions, potatoes and other vegetables that have increased so in price in the local markets. Wool is bringing the best prices in the markets that the farmers have ever had. Corn and hay are retailing at record prices and food prices are still soaring.

HURRAH FOR LODGE!

Good for Senator Henry Cabot Lodge. He is an American, every inch of him, and we can forgive all his political partisanship for that straight right from the shoulder that floored the false American who undertook to rebuke him for standing by his country. If there is treason and disloyalty in some parts of New England, there is nothing but robust Americanism about the most distinguished man that New England now has in the Congress of the United States.

GOODNESS GRACIOUS, WHAT WILL HAPPEN NEXT?

A limit of \$7 has been fixed as the cost of the material in any dress to be worn by girl members of the 1917 Evansville (Indiana) High School class at commencement. The young women at a meeting decided to practice strict economy in graduation dress. After fixing a limit of \$7 for dress they decided that none of them should receive flowers at the exercises. None of the girls will wear an evening dress to the senior reception.

SAFE MEDICINE FOR CHILDREN.

"Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effective in relieving coughs, colds and croup. Obtainable everywhere.

TWENTY-FIVE-YEAR-OLD LAYS EGG A DAY.

Elwood Harris, of Franklin, Ky., is the owner of what is possibly the oldest hen in Kentucky, if not the world. The hen was hatched with a brood twenty-five years ago and began laying early as a pullet. Throughout a quarter of a century she has laid an egg daily in the season when not engaged in setting or rearing a brood. Except for stiffness incident to age she shows no evidence of decline and lays an egg a day.

Now Strong as a
Man.

Chicago, Ill.—"For about two years
I suffered from a female trouble so I
was unable to walk or do any of my own
work. I read about Lydia E. Pinkham's
Vegetable Compound in the news-
papers and determined to try it. It
brought almost immediate relief. My
weakness has entirely disappeared
and I never had better health. I weigh
165 pounds and am as strong as a man.
I think money is well spent which pur-
chases Lydia E. Pinkham's Vegetable
Compound."—Mrs. J. O'BRYAN, 1765
Newport Ave., Chicago, Ill.

The success of Lydia E. Pinkham's
Vegetable Compound, made from roots
and herbs, is unparalleled. It may be
used with perfect confidence by women
who suffer from displacements, inflam-
mation, ulceration, irregularities, peri-
odic pains, backache, bearing-down feel-
ing, flatulency, indigestion, dizziness,
and nervous prostration. Lydia E. Pink-
ham's Vegetable Compound is the stand-
ard remedy for female ills.

IF YOU THINK YOU
WORK HARD READ THIS

If you think you are overworked,
read what this writer in Farm and
Fireside has to say about his job on a
farm, although it is very typical, no-
body would be left in the pursuit of
agriculture:

"On May 1, my wife, boy and I
moved on to a ranch. I was told that
my work would consist in taking care
of six head of mules, one buggy horse,
milk the cow, get in some wood at the
owner's house, and put in nine hours
in the field at work.

"Well, I found that I was expected
to be in the field and start the team
promptly at seven o'clock (one field
was one and a half miles from the
barn), stop the team at twelve, take
them to water, half a mile from the
wagon, feed them, cat a cold dinner
winter or summer, and be hitched up
ready to move at one o'clock, work un-
til five, drive to the house, put the
mules away, split wood for the range
in the kitchen, carry enough large
chunks of oak wood for three heating
stoves, split enough fine kindling for
all the stoves, milk the cow and a
young heifer, feed six head of mules,
the horse, carry water about 75 yards
to three head of calves, pump water
by hand for all the stock, eat my sup-
per, and if there was any time left to
get any sleep, well and good"

A GOOD STORY.

Here is a good story related by a
prominent clergyman of the Church of
England, Canon Ainger, in his Remi-
niscences, as recently published.

The worthy Canon tells us that all
through his life he has been a great
lover of children, and never found him-
self at a loss to provide amusement
for such as came his way. He set out
one night to attend a party for chil-
dren in the home of a friend in Lon-
don. Arriving at the door he said to
the footman: "Do not announce me,"
and proceeded to take off his coat and
creep into the dining room on his
hands and knees, making strange
noises, as the neighing of a horse or
the braying of an ass. No sound of
laughter or applause greeted his ef-
forts and, when he looked up, he found
himself in the company of a party of
strangers, men and women, who were
seated at the dinner table, and were
eyeing him as some escaped lunatic
who had somehow managed to get hold
of a clergyman's dress.

"The children's party," the Canon
tells us, "was next door."

tom dollar, is it not possible to use it

SHARP, STABBING PAINS.

Often Tell of Weak Kidneys—A Paris
Resident Shows You What
To Do.

The sharp twinge of pain in the
small of the back that strikes you
after any sudden twist or awkward
motion, may tell of weak kidneys.
And there are often disturbances of
the urine—too frequent urination,
scalding or burning pain during pas-
sage, discolored urine and sediment.

Doan's Kidney Pills are prepared es-
pecially for weakened kidneys, kidney
backache and urinary disorders—have
proven their merit in thousands of
cases. Doan's are endorsed through-
out the civilized world—are recom-
mended by Paris residents.

Chas. Stewart, tinsmith, Lilleston
Avenue, Paris, says: "I had three or
four attacks of lumbago in the past
few years, the first being the worst.
My back was a dull, constant ache all
the time and often sharp, cutting
pains darted through it. Sometimes,
I thought I could hardly endure the
misery. Doctors' medicine was of no
avail and somehow I got hold of Doan's
Kidney Pills, procuring them from the
Ardery Drug Co. The first box helped
me and I continued taking them until
cured of the attacks. Return spells
since then have always been slight,
and Doan's Kidney Pills have never
failed to relieve me."

CROSS ANDES IN THE AIR.

The mighty Andean mountain range
of South America, the highest in the
western hemisphere, has just been
crossed by aeronauts for the first time.
The feat was accomplished by two
men in a balloon. The aeronauts left
Santiago, Chile, on the Pacific side
and descended five hours later in Men-
doza, on the eastern slope of the range.
In the Argentine Republic. They re-
ported a very difficult trip, and had
to rise to a great height to catch a
favorable air-current. So far the
Andes have not been crossed by aer-
plane.

The French army is adopting steel
tires in preference to rubber for its

MAY LOSE COMMISSION IF NOT CAREFUL.

In future county officers who do not perform the duties imposed on them in the matter of collecting fines and forfeitures due the State will not receive their commissions on the amounts at the expense of the State, but the expenses of collection will be taken out of the commissions.

In many instances the Commonwealth's Attorney receives 50 per cent. of fines and forfeitures; the County Attorney, 25; the clerk, 10, and the jury fund 3, leaving only 12 per cent. for the State. Inspector and Examiner Nat R. Sewell reported to State Auditor Robert L. Greene that sometimes the 12 per cent. does not cover the expenses of his examinations.

Auditor Greene laid the situation before Attorney General M. M. Logan, who said the law allowing them the commission imposes certain duties upon them, and that when they do not perform these duties, and the collections are made by the Inspector and Examiner, the expenses of the examination and collection should be deducted from their commission; but recommended that the officers be notified and that the rule apply to cases arising after the notices are given.

CUT OUT TOBACCO.

(Contributed.)

Ed. THE NEWS:—I have been through Bourbon county very recently on a business mission, and have talked with some of the best farmers and tobacco growers in the county. A great many of them are of the opinion that as much money would be realized on a full crop of food stuffs this season as on tobacco.

The trouble is to get their tenants to see it this way; and also the small land-owner who makes tobacco his "money crop."

Let every newspaper in the tobacco sections start out the cry, "Cut out the tobacco" for if it isn't done there will be surely a cry coming this next winter for bread and potatoes. X X

THINGS TO WORRY ABOUT.

The report comes from Massachusetts of a woman who is ninety-four years old, and ascribes her longevity to eating candy all her life. This seems a genuine novelty. We often wondered why some other trade did not get in a few claims on these centenarians, instead of letting the tobacco people take all the honor. Along this line a Paris centennial makes the statement that hard work and minding her own business was the cause of her long life. So there you are!

MUTT & JEFF'S WEDDING.

In order to call attention to the advent of the latest comedy on the famous cartoons, Mutt and Jeff, and Jeff's Wedding, which is underlined as the next attraction at the Grand Opera House next Saturday, April 14, the management has inaugurated a unique contest. All patrons will be invited to enter. The idea is to see how many phrases and sentences can be made of the appended billing: "Mutt and Jeff's Wedding Is The Merriest Show on The Stage." These to be formed into a criticism of the production.

After close inspection you will observe that the billing consists of eleven words and forty six letters. By using the letters of each word and twisting them in any number of angles and shapes many sentences and phrases will result. The rules of the contest are that the criticisms must be complimentary and that no two be alike.

As an incentive the management will give to the winner or winners submitting the best criticism two seats for any performance of the show during its stay in town. One of the rules of the contest is that the competitors must make their contributions very brief, being limited to one hundred words. For further information write to the Manager, Fred Erd, of the Paris Grand Opera House. (adv.)

LEAGUE VISITING NURSE CARES FOR YOUTH.

A few nights ago a young man giving his name as Harry Rogers, fifteen years old, was discovered by railroad employees hiding in the Louisville & Nashville round-house in the South Paris yards.

He was brought to Paris and turned over to Mrs. Harriet Minaker, in charge of the Bourbon County Health and Welfare League's headquarters. Mrs. Minaker questioned the boy, who after considerable hesitation, admitted he was the son of Mrs. C. A. Rogers, of Savannah, Ga., and confessed he had run away from home.

Mrs. Minaker at once got in communication with the authorities at Savannah, and learned the boy's story was true. He was placed in a boarding house, where he remained until transportation to his home in Savannah was forwarded to him.

LOOKING FOR OIL.

Mr. E. M. Williams, representing wealthy oil operators of Bradford, Pa., has leased oil and gas rights on a body of land comprising 2,700 acres of land near Hutchison, this county, on which it is proposed to prospect for oil and gas this summer.

The lands leased are owned by Mrs. Belle Alexander, Mr. and Mrs. Buckner Woodford, Mr. and Mrs. O. L. Davis, Mr. and Mrs. Arthur Hancock, Mrs. Ullie J. Howard and Mr. N. Ford Brent.

Drilling operations in the field will begin as soon as the necessary machinery, hoisting rigs, etc., arrive and are placed in position. It is proposed to sink a test well to a depth of 1,000 feet as a preliminary to more extended operations.

BOURBON MEN IN BREEDERS' CONVENTION.

At the meeting of the American Saddle Horse Breeders' Association held in Louisville, Hon. Claude M. Thomas, of Bourbon county, was elected vice-president. Mr. Thomas, Mr. Jno. T. Collins, Mr. Allie Jones and others from Bourbon county, were present.

Mr. Thomas acted as chairman of the meeting, and delivered a brief address in introducing patriotic resolutions, which were adopted.

B-4 FIRE Insure with W.O. HINTON & SON, Agts

BURNING TRANSFORMERS CAUSE \$1,800 FIRE LOSS.

Fire of an unknown origin Tuesday night, which destroyed the big transformers of the Paris Gas & Electric Co., near the entrance to the old Paris Fair Grounds, caused a property loss of \$1,800 to the company.

An alarm was sent in from Box 34, the fire department responding immediately. Owing to the nearest fire plug being a long distance away, the department could not render much service with the water pressure, but used their chemical extinguisher. The wooden base and surroundings of the transformers were burned away, and the were rendered useless seriously interfering with the local light system. The Paris plant was put in operation, relieving the situation and supplying customers with light and power. The fire department made a second trip to the scene after recharging the big chemical tank and put out the flames which had broken out afresh.

The damage to the transformers which take the high power current from the sub-station near Kenney and transmit it to the city lines, was repaired by a force of men under Manager C. A. Steenbergen, Wednesday.

EPWORTH LEAGUE HOLDS PATRIOTIC MEETING

The regular monthly social and literary meeting of the Epworth League of the Methodist church was held in the church last night at 7:30 o'clock, in the presence of a large audience. The entire program, every number of which was a patriotic selection, had been arranged with the view of making this the banner social of the season, and it was even so.

The program was in charge of Mrs. James Grinnell, Jr., Superintendent of the Literary and Social Department of the Paris Chapter. The meeting was opened with devotional exercises. The reading of Proverbs 15:34 formed part of the program, and sentence prayers were offered for the safe guidance of the country in the present crisis. The program as rendered was as follows:

"Uncle Sam"—Mr. Y. H. Harrison.
"Old Glory"—Miss Dorothy Tingle.
"Young America"—Edgar Tingle, Jr.

PARIS COMMERCIAL CLUB SEEKS ADDITIONS TO CITY.

At a meeting of the Paris Commercial Club, held at the court house Tuesday night, a resolution was adopted changing the membership fee from \$5 to \$2 and providing for a campaign in both the city and county for an increase in membership.

The question of paving certain streets in the city held the principal place on the program, was discussed, and a resolution adopted favoring the paving of as much of Main, High and Pleasant streets as would be practicable, considering the amount of funds available out of the tax collections of the current year to pay one-third of the cost of construction.

The consensus of opinion among the people who are pushing the paving project is that a bond issue for this purpose is the only feasible plan.

Mr. William O. Hinton, on behalf of the Mayor of Paris, extended to the Commercial Club an invitation to attend in a body the patriotic demonstration to be held at the court house to-morrow (Saturday) afternoon at two o'clock.

INTERESTING COLLECTION OF OLD RELICS.

Mitchell & Blakemore have on exhibition in their show window one of the most interesting collections of old time war material, ever shown here. The collection was gathered together by the late Mr. Robt. Neely, of Paris, and comprises a wondrous array of death dealing instruments from almost every country in the world. Some of the specimens date back as far as the fifteenth century. Revolvers, bullet moulds, "pistols," rifles, swords, daggers, arrows, in fact almost every conceivable character of arms, are shown in the collection.

In another window is shown specimens of the modern three-inch shrapnel shells, manufactured in Dayton, O., for the Russian government. There is also shown there a modern uniform such as in worn by the cadets of the Culver Military Institute, at Culver, Indiana, together with swords and other military bric-a-brac of more modern "styles."

The collection has attracted great attention, and very few pass by without taking a look at the display.

All good Americans in Bourbon should attend the patriotic mass meeting at the court house to-morrow at 2:00 p. m.

MUNITION PLANT EXPLOSION KILLS MANY.

CHESTER, PA., April 10.—3 p. m.—At least one hundred persons, mostly girls, were killed and two hundred or more injured by an explosion to-day in the great munitions plant at Eddystone, Pa., near here, owned by the Russian government.

Nothing is known as to the cause of the explosion, though there is a suspicion that it was not due to an accident.

Ripley Park hospital, a town near Eddystone, reports that four charred bodies and twelve injured persons have been received there. Three of the injured will die.

According to a report fifty bodies are in the Chester morgue and forty injured persons are in the Chester hospital.

Bodies are reported piled on the sidewalk.

At noon it was said that from 50 to 150 persons had been killed and about 200 injured.

The fire, which was confined to the shrapnel loading building, in which it originated, had been subdued. In this building about 400 men, women, boys and girls were employed as loaders.

The first explosion originated in the structure known as the pen F building. Immediately there was another explosion in the old F building adjoining. These two structures were destroyed.

At 1 p. m. firemen, policemen and others were still dragging bodies from the wreckage. Shells were found scattered about the scene for a space of two blocks.

At the undertaking place of Coroner White there are 80 bodies, 79 being those of girls.

Thousands of girls were employed at the plant, most of them coming from Philadelphia, ten miles away. They were attracted by the high wages paid.

The explosion occurred soon after 10 o'clock in the pellet room of the shrapnel building where about 100 girls were employed putting the finishing touches on shells. In a building adjoining approximately 30,000 shells were stored. A second explosion demolished this building and scattered the shells in every direction.

No official of the company was found who could tell anything about the explosion. There were whispers of a plot to destroy the plant. If there was a plot, no more effective spot could have been selected for the work. It was near the Delaware River bank and well isolated.

The plant was originally constructed soon after the European war started by Baldwin Locomotive interests. Recently it was taken over by the Russian government, which has been employing about 10,000 people making shells.

HIGH TOBACCO AVERAGES.

The Burley tobacco markets of Central Kentucky have paid out nearly \$25,000,000 for tobacco since the market opened last fall. The amount paid out in Lexington was \$7,643,250. Richmond and Paris showed higher seasons' average than Lexington. Richmond's average being \$18.46, and Paris \$18.34, as against \$18.30 in Lexington. The Paris market is now conceded to be one of the very best in the State.

LATE BULLETINS.

An editor in the Far West dropped into church for the first time in many years, says Tit-Bits. The minister was in the very heart of the sermon. The editor listened for a while, and then rushed to his office.

"What are you fellows doing? How about the news from the seat of war?"

"What news?"

"Why, all this about the Egyptian army being drowned in the Red Sea. The minister up at the church knows all about it, and you have not a word of it in our last. Bustle around, you fellows, and get out an extra-special edition."

MORE THE MERRIER.

(Telephone News.)

"Don't you find your telephone a great convenience?" bubbled Mrs. Liphint. You can sit at home and talk all over town."

"Yes," admitted Aunt Susanna, dolefully, "it is handy, but it's only a two-party line. My sister Deborah down in the country is on a six-party line, and she can hear the gossip of the whole district."

If it were not for emergencies, but little progress would be made in the world.

Frankfort Chaplain Tells of Two Months' Trial.

"FEELS LIKE A NEW MAN"

There may be someone in Frankfort better known than W. F. S. Brawner, Past Grand Chaplain of the I. O. O. F. Kentucky Jurisdiction, but it's safe to say that Mr. Brawner counts his friends by the thousands.

For fifty-five years a prominent member of the Baptist church, he is

W. F. S. BRAWNER.

at present chaplain of Lodge No. 23, I. O. O. F., of which he has been a member for forty years.

"I was weak, run down and nervous following a spell of bad health," said Mr. Brawner. I had pains through my chest at times that caused me a lot of trouble.

"Nervousness set in, and I couldn't sleep well at night. The least little noise would wake me up, and that meant I would lie awake the rest of the night."

"I got so I couldn't enjoy a meal. Food that used to make me almost eat my head off didn't tempt me. The 'boys' at the lodge asked what was the matter with me."

"Well, I couldn't tell exactly. I was just half-sick and all-in. My brother-in-law got me to try Tanlac. I didn't have much faith in it, but I consented to try it."

"Well, sir, it's remarkable what Tanlac has done for me. I've been taking it for about seven or eight weeks and I feel fine. When I sit down to the table you can be pretty sure that I'm going to eat everything that is put in front of me."

"I sleep sound every night and my sleep rests me. I really can't say enough for Tanlac."

If you don't feel right get Tanlac today. Delay in health matters is dangers.

Tanlac, the master medicine and reconstructive tonic, is sold exclusively in PARIS by Varden & Son. Other exclusive agents in nearby towns are as follows:

Tone your system up with a regular course of the liquid Peruna, fortify it against colds, get your digestion up to normal, take care of yourself, and avoid danger. 'Old Jupiter Pluvius takes fiendish delight in ruining poorly protected buildings. At every little crack or bare spot in the paint, the rain soaks in and spreads rot through the wood.

To last, your buildings must be as waterproof as a staunch boat. They will be, if well coated with paint made of Dutch Boy White-Lead thinned with pure linseed oil. Such paint gives a smooth, weatherproof surface that will not crack or scale. It gives beauty, also.

Before the next rain, call on us about painting and painting materials. We expect you. If you can't call, 'phone or write.

LOSES EIGHT RELATIVES IN EUROPEAN WAR.

Eight relatives of Mr. Anthony Gnadinger, of Cynthiana, who is well-known in Paris, have been killed in the European war. Mr. Gnadinger learned recently that the husband of his young niece had been drafted for service, leaving his wife and babies practically destitute. Her relatives in Cynthiana have no assurance that any aid that they might send her would reach its destination.

NINE THOUSAND GERMANS CAPTURED BY BRITISH.

LONDON, April 10.—The British offensive between Lens and St. Quentin, with which the spring operations have been opened and which is still in progress, has proved even more successful than the earlier accounts indicated.

General Sir Douglas Haig reports that Monday's captures exceeded 9,000 men, while forty guns fell into the hands of his troops.

The Canadians, who had one of the hardest bits of the front to contend with are now in complete occupation of the famous Vimy Ridge, even its eastern slopes having been cleared of Germans. The Canadians also have repulsed German counter-attacks.

END OF WEEK EXPECTS TO PUT U. S. IN WAR.

WASHINGTON, April 12.—With actual war operations likely to materialize before the end of the week, the administration and Congress are now entered upon the stupendous task of making effective the participation of the American republic in the world conflict.

The correspondent betrays no secret when he says that an attack by Germany is expected. The attack is expected from any one or all of several quarters. German submarines and cruiser raiders are likely to appear off the Atlantic seaboard at any time and shell American ports. A submarine attack on the Panama Canal is another possibility.

The likeliest quarter, however, is Mexico. It is known there are thousands of German reservists in Mexico that many have gone there from the United States since the diplomatic break with Berlin apparently in accordance with a prearranged plan, and that there are German officers in the Mexican army and German agents in positions of high trust in the Carranza government.

There is ground for the belief that the movements of the Germans in Mexico are not unrelated to the Zimmermann plot to draw Mexico and Japan in a war alliance against the United States. The government has considerable information on this situation which was not made public when President Wilson revealed the Zimmermann plot.

The unbusiness of the government concerning German schemes in Mexico has been aggravated by the absolute failure, if not absolute refusal, of Carranza to give any satisfactory assurance of friendliness to the United States and of determination to relieve the American nation of anxiety regarding German operations on the border.

It is known that there are plenty of machine guns, rifles and ammunition in Mexico to equip a force for a formidable attack on the border.

The mobilization of Carranza troops at Juarez is being watched with some suspicion, particularly as Carranza says it is for the purpose of checking prospective Villa raids organized by German agents. Carranza, therefore, does not deny the prevalence of German activities in Mexico, but transfers the blame to Villa.

So far as internal danger from the plots of German agents and sympathizers is concerned, the administration believes it has the situation well in hand. There are several hundred suspected enemy aliens under surveillance and before the end of the week there probably will be many more arrests.

Those who fail to comply implicitly with the directions of conduct laid down by the President in his war proclamation will find themselves in trouble with the government.

Attorney General Gregory and Assistant Attorney General Warren conferred with the President, Monday, upon the progress made by the Department of Justice in rounding up dangerous enemy aliens and upon the espionage, censorship, and other protective legislation which Congress will be asked to pass at once.

WHY CONSTIPATION INJURES

The bowels are the natural sewerage system of the body. When they become obstructed by a constipation a part of the poisonous matter which they should carry off is absorbed into the system, making you feel dull and stupid, and interfering with the digestion and assimilation of food. This condition is quickly relieved by Chamberlain's Tablets. Obtainable everywhere.

LILLIE LANGTRY WRITES HER AUTOBIOGRAPHY.

Lillie Langtry, most famous actress of her day, has at last consented to give to the public the story of her career. This most interesting history of the stage begins in the May Cosmopolitan. Heretofore Mrs. Langtry has strongly objected to writing her autobiography, so Cosmopolitan is indeed most fortunate in being able to at last place before its readers the story of Mrs. Langtry's social and artistic career. The work is illustrated with very remarkable photographs.

WILD DUCK SEASON CLOSED.

The State Game and Fish Commission, through its various county and deputy State Wardens, has sent broadcast notices to hunters regarding the closed season for wild ducks, which went into effect on the first of the present month. Hunters have been strictly warned against violating the provisions of the game law, applying to the killing of wild ducks after the season has closed. Giggling in the fishing streams of the State is also prohibited by the new law.

GRAIN ELEVATORS BURNED; GERMAN PLOTTERS SUSPECTED

MINNEAPOLIS, MINN., April 12.—Two grain elevators were destroyed by fire, believed to have been of incendiary origin early Tuesday.

The total loss will be nearly \$500,000 it was estimated. National guardsmen patrolling the district reported that in both instances several explosions were heard in the structures before the flames were discovered.

The Marfield Grain Company was the heaviest loser. More than 100,000 bushels of wheat, valued at about \$200,000, were burned. The building was valued at \$150,000.

An hour earlier the Quinn-Shepherdson Company's elevator several blocks away was destroyed by fire with a loss of \$50,000. The structure contained 20,000 bushels of corn. More than 50,000 bushels of grain in box cars on sidetracks were damaged.

DEATHS.

SALOSHIN.

—After lingering for several days following an operation performed at the Jewish Hospital in Cincinnati, for an abscess of the liver, Mr. Louis Saloshin, one of the best-known citizens of Paris, died in that institution at nine o'clock Wednesday night.

Mr. Saloshin had been ill for some time at his home in this city and his trouble not yielding readily to treatment, his physicians, after consultation, decided upon an operation, which was performed at the Jewish Hospital, in Cincinnati. Mr. Saloshin rallied nicely from the shock and it was with renewed hope and confidence that the members of his family returned to Paris after spending a long vigil at the bedside of husband and father.

Mr. Saloshin was a native of Bavaria, where he was born sixty years ago. At an early age he came to America, and began with the old-world thrift to make his way in the world. He was possessed of keen business instinct, which he applied successfully in his business career. By dint of close personal application to his business and by well-directed thrift in the gro-

cery business he accumulated a nice fortune. He was a man who was universally liked, being of a jovial disposition, and making close friends everywhere. He had always a quip and joke and a smiling countenance, and was known far and wide for a remarkable gift of mimicry.

He is survived by his widow, who was Miss Mary Margolen, sister of the late Mr. Herman Margolen, of Paris; two sons, Mr. Harry Saloshin, of Cincinnati; Mr. Jacob Saloshin, of Paris; four daughters, Mrs. Sim Levy, Miss Essie Saloshin, and Miss Macie Saloshin, of Paris, and Mrs. Sam Joseph of Cincinnati; one brother, Mr. Frank Saloshin, of Covington.

The funeral will be held at the residence of his son, Mr. Harry Saloshin, in Cincinnati, at ten o'clock Sunday morning. The burial will take place in the Lick Run Cemetery, in Cincinnati.

VARDEN.

—Dr. George Kent Varden, aged thirty-three, died at his home in Atlanta, Georgia, Wednesday, after a long illness, the nature of which has for many weeks, baffled his physicians, who had made a close study of their patient.

Dr. Varden was the son of Dr. and Mrs. George S. Varden, of this city, where he spent the larger part of his life. He received his early education in the schools of Paris and under the tutelage of his grandfather, Rev. Geo. S. Varden, himself a noted scholar and educator. Dr. Varden after leaving college studied medicine in the offices of Drs. Fithian & Daugherty, in this city, and attended the Philadelphia College of Medicine, and other well-known medical schools, from which he graduated with high honors. After leaving college he was for several years an interne in the Bellevue Hospital, in New York, and was engaged in medical research work in other places. Coming back to Paris he remained here a while, later going to Atlanta, where he opened offices. His specialty being the treatment of children's diseases, in which he had built up a large and lucrative practice.

During his residence in Atlanta, Dr. Varden married Miss Grace Calloway, of Atlanta, who, with one child, survives him. He is also survived by his parents, Dr. and Mrs. George S. Varden, of this city; three brothers, Messrs. Joseph Varden, Blair Varden and White Varden, all of Paris; two sisters, Miss Elise Varden and Mrs. Hugh Brent, of Paris.

The body was brought to Paris from Atlanta on the 5:30 Louisville & Nashville train this morning, and was taken to the residence of his parents, on High street. The funeral will be held at St. Peter's Episcopal church, at three o'clock this afternoon, with services conducted by the rector, Rev. George H. Harris. The burial will follow in the Paris Cemetery. The pallbearers will be O. L. Davis, Dr. Chas. G. Daugherty, Dr. Chas. Vance, J. Q. Ward, C. K. Thomas, E. M. Dickson, H. C. Howard, Wm. H. Webb and C. M. Thomas.

MATRIMONIAL.

HIGHFIELD—BATTERTON.

—Mr. and Mrs. Alvin Soffell Highfield, of Lexington, have made announcement of the engagement of their daughter, Miss Mary Virginia Highfield, to Mr. Roy Joseph Batterton, of Paris. The wedding will be a pretty society event of June. The news is of much interest here, as both young people are very popular. The bride-elect is the youngest of several charming daughters of the Highfield home, and is a favorite with all who know her. Mr. Batterton is the son of Mr. and Mrs. Alfred Batterton, of near Shawhan, and is a brother of County Attorney George Batterton, and Mrs. Raymond McMillan, of Paris. He is a prosperous young farmer.

SMARTE—FARRIS.

The marriage of Miss Nancy Smarte, of Paris, and Mr. Thomas Farris, of near Millersburg, took place at the residence of the officiating minister, Rev. Dr. O. R. Mangum, on Sixth street, at seven o'clock Wednesday evening. The attendants were Mrs. Mangum and Mrs. Howard Lancaster. After the ceremony Mr. and Mrs. Farris left for the home of the bridegroom, who is engaged in farming near Millersburg.

Mrs. Farris has for several years been one of the highly-valued and efficient operators in the Cumberland Telephone Co.'s Paris exchange. She is a young woman of culture and many accomplishments.

The bridegroom was for several years turnkey at the Paris jail where, his father, Mr. Jos. Farris, is Jailer. He retired from this position some months ago to engage in farming on a farm between Ruddle Mills and Millersburg, which his father recently purchased. THE NEWS extends heartiest congratulations to both these popular young people.

VERY SELFISH SPIRIT.

"Have you ever noticed," said the nervous young man, striving to make conversation at the tea table, "that—er—bachelors, as a rule, are—er—richer than married men?"

"Yes," replied the masculine-looking lady, wearing the colors of the Philadelpians, "I have," so relates the Philadelphia Leader.

"Ah! And how do you account for it?"
"Very simple. Poor men marry and rich men don't. Men are always readier to divide nothing with a woman than something."

FOLLOW THE FLAG.

It is the right of the American people to enjoy a monopoly for their own flag within their own jurisdiction; it is the right, and should be the duty, of those who follow other flags to follow them elsewhere.—The Century Magazine.

OPENING OF 1917 BASE BALL SEASON.

The 1917 base ball season opened Wednesday at all the parks in the various Leagues, with large crowds in attendance, and great enthusiasm manifested. Cincinnati won the opening game with St. Louis by a

score of 3 to 1. The batteries were: Cincinnati, Schneider and Wingo; St. Louis, Meadows and Snyder. The result in the league games were as follows:

National League—Chicago 5, Pittsburgh 3; St. Louis 1, Cincinnati 3; Philadelphia 6, Brooklyn 5; New York-Boston, snow on field, postponed to Thursday.

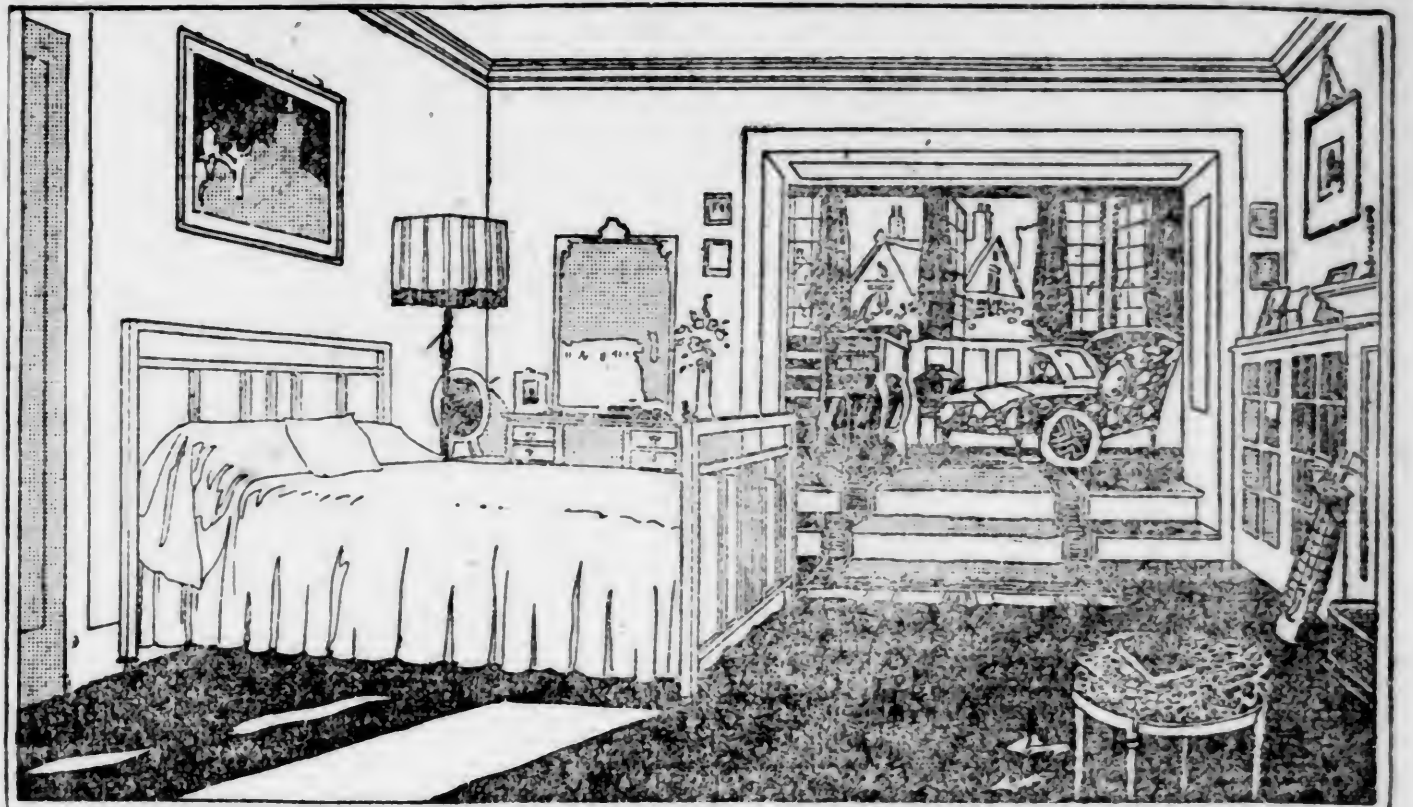

American League—Cleveland 6, Detroit 4; Washington 3, Philadelphia 0;

Chicago 7, St. Louis 2; Boston 10, New York 3.

American Association—Columbus 2, Louisville 4; Toledo 5, Indianapolis 6; Minneapolis 0, Kansas City 3; St. Paul 0, Milwaukee 4.
